

Abyss™

They have done it again. The guys over at Nimbus Nutrition keep coming up with ways to impress us all. Their latest development is meant to tackle an issue that all of us, especially the intense athlete, struggle with frequently...

Sleep... or actually the lack there of.

Nimbus Nutrition's newest product Abyss™ is another great development using the same principal that all of their supplements have been created with, "Simple yet Synergistic". Nimbus has taken proven sleep producing compounds such as L-Tryptophan, GABA and Phenibut and combined them with key vitamin and mineral combinations such as Magnesium, Zinc, B-6 and the only active form of B-12 in the Central Nervous System AND neurological pathways...Methycobalamin. Nimbus Nutrition as assembled these proven ingredients, in very specific proportions to create the ultimate sleep aid that will redefine the term "Deep Sleep". Welcome to the ABYSS™!

This 3 part sequence of; falling asleep, staying asleep and maximizing the benefits of REM during your sleep cycle, once again pushes the limits of supplement efficiency. The tremendous benefits are even amplified when you consider that Abyss™ requires no prescription, is inexpensive and most of all provides a safe, extremely effective alternative to prescription drugs.

Nimbus Nutrition invites you to experience the kind of rest you've always "Dreamed" about. Dive into the peaceful, rejuvenating depths of the ABYSS™...
